

Case Study

Lithia Springs Library, GA

BEFORE

Challenge

- The space had no artificial lighting besides table lamps.
- Patrons complained that the space was too dark on overcast days.

Solution

- Completed a lighting layout to determine how many flat panel fixtures would be needed to ensure easy reading at table level.
- Install the new fixtures in the ideal layout for even light distribution.

AFTER

Improvements/Benefits

- After installing 50 flat panel fixtures, the area was evenly and brightly lit, even on cloudy days.
