

Case Study

Open Arms Daycare, NC

BEFORE

Challenge

- Classrooms, hallways, and the kitchen were dimly lit by old outdated recessed fluorescent fixtures.
- Dark spaces caused safety concerns for the children at the daycare.
- The budget for lighting was relatively small.

Solution

- Upgrade the existing recessed fixtures by replacing them with LED flat panel fixtures.
- Replace the exit signs with LED exit signs.

AFTER

Improvements/Benefits

- Evenly lit and much brighter classroom and hallway spaces for the kids and staff
- Safer kitchen work area
- Long-term emergency egress safety with the new exit signs
