

LED Parking Area Lighting

Increase light quality, coverage and security while decreasing energy consumption and operating expenses with new LED parking area lighting fixtures.

The Philips Gardco EcoForm features a single, low profile housing design and delivers a variety of lumen packages, making it the perfect choice for replacing existing HID installations.

- Lighting Layouts and Energy Audits available
(Specific light distribution visuals, audits that include ROI calculations, etc.)
- Turnkey Services from Layout to Installation
- Comprehensive Control Solutions
- Quality and Trusted Product
(Philips, Advance, GE, Lunera, Lightolier, Cree, and others)

Voss Lighting is your source

when project budgets call for an affordable solution that will meet specifications without sacrificing performance.
